KERRI FLEMING

Care coordinator & Mental health nurse
at The Bridge Service

PROFESSIONAL EXPERIENCE

Kerri is a caring and compassionate mental health nurse who has specialised in patients with eating disorders since her career began in 2010. Kerri moved to England from the Republic of Ireland to work within renowned eating disorder units across England. Kerri believes she can make the most positive difference to the outcomes of eating disorder patients by setting up The Bridge as an outpatient service to meet the needs of service users. Kerri has the ability to engage patients with eating disorders so they feel empowered and develop positive behaviours. Her experience within the NHS and private sectors has allowed her to get an understanding for what it's like to live with an eating disorder, unpinning her passion and drive to help them recover.
